We will sample to the trade only. All samples will be sent standard UPS Ground or USPS shipping. Should you require faster shipping, please include your UPS or FedEx account number with your request, or we can charge your credit card for the cost of the faster service.

The small sample you receive is generated from unusable material during or normal production process. It is not intended to represent exactly what you would order. Keep in mind any sample sent represents a very small portion of the surface of a 4' x 8' sheet of veneer. The sample you receive may not be on the backing you specify, samples are for wood and grain reference only.

If you need a sample to represent what you would receive, a request for a live flitch sample is needed. Wood veneer is a natural product and will always exhibit individual features and character marks.

Note, flitch sampling will extend lead-time and increase pricing.

We reserve the right to charge a small fee plus shipping and handling to individuals requesting veneer samples.
