

# BIG APPLE

## CORK, FORBO, VINYL & FABRIC BULLETIN BOARDS

The Big Apple frame offers unsurpassed strength, beauty and ease of installation. It is the only frame in the industry to bolt each part of frame through the board. It is also the only board that fastens the top of the frame through mounting clips, the board core and a factory installed mounting bar.

Bulletin Boards using the Big Apple frame are better in every way compared to any other Bulletin Board. The frame is more sturdy and the unique mounting system makes mounting the board easy.

Big Apple Bulletin Boards are available in Natural Cork, Forbo Cork (twelve colors), Fabric (six colors) and Harborweave Vinyl (six colors).
